In the month of November - 260 cats in and out of shelter.

MEMORANDUM

TO: Green Advisory Committee
FROM: Jonathan M. Turkel, Park & Stewardship Planner *JMT*
SUBJECT: Meeting of April 29, 2014
DATE: April 23, 2014

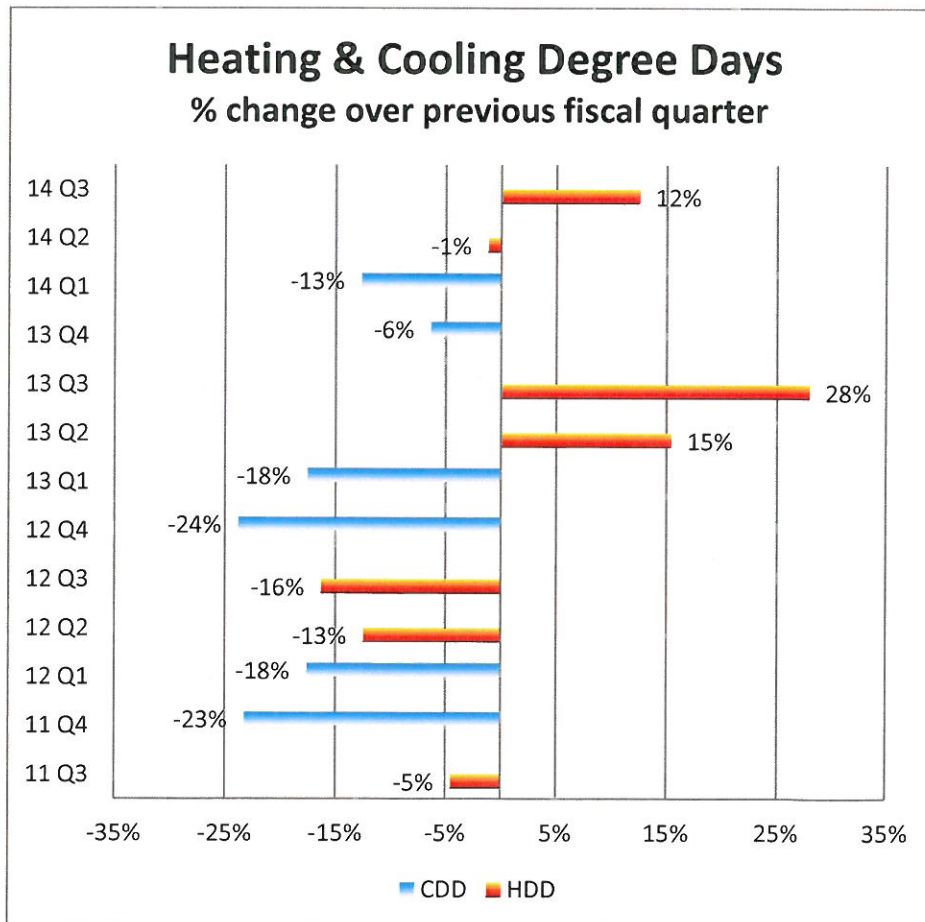

There will be a meeting of the Green Advisory Committee on Tuesday, April 29, 2014, at 8 a.m. in the conference room located on the on the **second floor of the north end of the County Administration Building at 107 North Kent Street, Suite 200**. The agenda thus far is as follows:

Items for discussion:

1. Energy Management Update
 - a. Planet Footprint data collection & monitoring. Using the Planet Footprint service staff is monitoring electricity and natural gas consumption across all accounts. Heating and cooling degree day data is being monitored to determine if temperature is driving changes in consumption. Using Planet Footprint database of Frederick County accounts, staff is able to monitor current and historical consumption for trend evaluation.

Improvements to the Planet Footprint service are now live. Better graphical representation of use and trends are now a feature, and the ability to 'push' reports to responsibility center heads should lead to greater awareness of consumption trends. See **(Attachment 1)** for new data presentation format.

This dashboard shows data from Jul - Mar 2014 (upto and including Quarter 3) compared the same period last year. [Learn about dashboards](#)
